Dear Don:

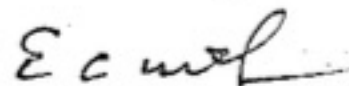

Alger, of course, was delighted to hear about our discoveries on the subject of typewriters.

He remembers the maid who told the FBI that she had been with Alger for five years beginning about the time Tony was born. She is Genoa Morse and when she left Alger about 1944, she went to work for the telephone company in Washington. Her last known address was 4691-B Benning Road, S.E., telephone Twining 1845. If you and Mike can extend your investigations to include Genoa, it would be very helpful. I am sure that you have in mind that Drusilla should also be interviewed.

I will let you know as soon as I have a report of Burnetta.

With many thanks for all your help while I was in Washington and for the excellent dinner, ex dessert,

Sincerely yours,
